9. SCHOLARLY AND PROFESSIONAL ACTIVITIES

I have obtained a Masters of Health Science in Health Care and Epidemiology. This degree has provided me with the expertise in Health Outcomes Research and Research methodology. As a result of this advanced education I am involved in collaborative research endeavors with the Center of Clinical Epidemiology and Evaluation and the Joint Orthopaedic Initiative for National Trials of the Shoulder. I have been awarded grants for clinical research. I have been invited to sit on two research disbursement committees for my expertise in research methodology.
